

How to Search for Available Properties

The “Search Properties” menu allows you to search for available properties and view maps associated with the property. Each tract of land available for licensing is identified by a Recreational License Unit (RLU) number. Hunting clubs are allowed to bid on as many RLUs as they like.

Land available for licensing is listed geographically by state and county. If your preferred county is not listed, then we do not currently have any property available for hunting in that county. Search results can be filtered by using the drop down arrows beside each of the search categories (state, county, RLU, price, and acres).
